## No. 12

## Firmengeschichte

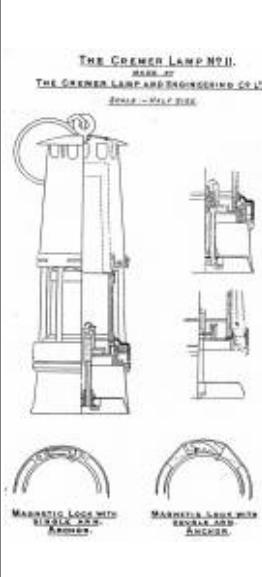

**1904** gründete Richard Cremer seine Firma „The Wolf Safety Lamp Company of Leeds“. In Leeds ließ er Grubenlampen von importierten Friemann&Wolf- Bauteilen zusammenbauen. Die Belieferung der Bauteile erwies sich jedoch als schwierig, sodass er die Bauteile selbst anfertigte.

**1908** wurde er vom Lampenhersteller Friemann&Wolf gezwungen seine Firma an Friemann&Wolf zu verkaufen, die dann mit ihm, als leitender Angestellter, 1912 in Konkurs ging.

**1913** gründete Cremer seine neue Firma, „The Cremer Lamp & Engineering Co. LTD.“. Für Karbidlampen (und Wetterlampen) kaufte Cremer Bauteile von Seippel in Bochum und anderen Herstellern für seine Lampen hinzu. Obwohl Konkurrent zu Friemann&Wolf musste Cremer aufgrund seiner deutschen Abstammung, wegen des ersten Weltkrieges, England verlassen. Sein Manager Woosnam leitete die Firma.

**1919** wurde der Firmenname aufgrund einer starken deutschen Ablehnung in England geändert in „The Premier Lamp & Engineering Co. Ltd., Leeds“ (12.1918)

## No. 11
